

SEBASTIAN VILLARREAL

BACK-END DEVELOPER

sebvillarreal.com

281.630.2410

sebastianv09@gmail.com

Proven track record in wide array of work environments. Comfortable being uncomfortable. Best results when thrown into the fire. Actively seeking opportunity to contribute in team environment and grow as a Junior Dev.

WEB TECHNOLOGIES

Back-End - Ruby, Ruby on Rails, SQL, PostgreSQL, MVC Architecture, RESTful APIs, Git and Github

Front-End - HTML, CSS and SASS, Bootstrap, JavaScript, jQuery, React, Wordpress

PROFESSIONAL EXPERIENCE

HALLIBURTON — SPERRY DRILLING SERVICES, Houston, TX

2014 — 2015

MWD Field Engineer

- Prepared and built equipment/tool according to drilling parameters, guaranteeing safe and effective operation down hole.
- Monitored log generation and reliability of real-time and recorded data, enabling geologists and engineers to make immediate, informed decisions that cut drilling time and costs.

CONTINENTAL LABORATORIES, Houston, TX

2013 — 2014

Mud Logger

- Ensured efficiency, safety and cost control by providing client with detailed analytical record of wellbore environment during drilling and completions.

HORIZON SCHOOL PERU, Trujillo, Peru

2012 — 2013

Volunteer English Teacher

- Organized classes and activities for students of ages 7-65.

CHESAPEAKE ENERGY, Oklahoma City, OK

2011 — 2012

Associate Field Landman

- Performed mineral and surface title research from patent to present, cursory mineral checks, due diligence title checks and identified and cured title issues.
